

Fall/Winter News

These last few weeks of the fall have us all busy planning for the upcoming winter months. This change of the seasons is one of the best times we can give thanks and show our appreciation to everyone we work with and for. We are grateful for our co-workers and give thanks to all our customer/partners. We are blessed to be able to continue our support to all our local industry communities throughout the Midwest.

As the year comes to an end, many of us are busy wrapping up our business plans and presents. While we plan our professional and personal goals for next year, we would like to remind everyone to take a few moments for yourself.

We wish you peace and joy along with good health and happiness for 2019.

Upcoming Events & Shows

Are you looking to gain some CEC / PDU credits? Do you like staying on top of the latest technology and trends? Make sure you are attending one of many upcoming geospatial conferences in early 2019. Seiler will be exhibiting and speaking at all of these conferences. Also, make sure to save the date for our 18th Annual Tech day in Wisconsin! **For details on all upcoming events and shows visit our website. [Events Calendar](#)**

Seiler has officially been approved as the Trimble Authorized Mapping/GIS Distributor for Nebraska

Seiler is now the official Trimble Reseller of **Mapping / GIS** equipment hardware and software for the state of Nebraska. Seiler has an office located in Omaha and is looking to hire for Mapping GIS sales. In the interim, we have Scott Smith covering the Nebraska Territory. For additional information or job opportunities please email us at: mapping@seilerinst.com

Seiler is an official U.S. Delair Service Center

[Delair Aerial Intelligence](#) recently announced a joint agreement with Seiler Instrument to be one of only two suppliers in the United States to offer sales, support and maintenance of commercial UAV fixed wing drones from Delair. Seiler Instrument represents the Delair UX11 product line with offices/territory located across the Midwest in St. Louis, Kansas City, Milwaukee, Omaha, Indianapolis and Chicago. The combined experience of our authorized service technicians is well over 150 years. Because of our longevity, stability and experience, Seiler clients know they will be able to reach someone that understands their unique geospatial environment. **[For any service needs you can contact us here.](#)**

Note: Did you know that For a limited time only, Seiler and Delair Aerial Intelligence have partnered to offer exclusive pricing on the Delair UX11 UAV Professional Drone? Receive up to \$8,400 trade-in credit of an eligible drone toward a UX11 with PPK unlimited. **[Contact us for details](#)**

Get to know us....

We welcome Gizem Karslioglu to our Technical Survey Support Team. Gizem is based at our Indianapolis office and has a background in Engineering Physics (Applied Physics.) Gizem is excited to support our customers and is constantly learning all the new technologies Seiler offers. If you need support, please give her a call toll free at 844-602-9314 or email our support team at: surveysupport@seilerinst.com

Some cool product video links on YouTube

We just love this awesome soundtrack of all the new highlights in TBC v5.00- check [out this this awesome sounding video](#)

Here is a [short video on the evolution](#) of the Trimble Controller over the years.

Meet the latest member of the GeoSLAM Family, the ZEB-HORIZON 3D mobile scanner! [Zeb-Horizon Video Link](#)

Did you know most equipment hardware and software that Seiler sells and that you purchase by end of 2018 is 100% tax deductible! (new & used)*

[Contact our sales staff](#) prior to end of year to expedite any purchases you may need.

*All businesses that purchase, finance, and/or lease new or used business equipment during tax year 2018 should qualify for the Section 179 Deduction (assuming they spend less than \$3,500,000). Learn more here and also use the Section 179 Tax Deduction Calculator! Section179.0rg
